

LUNCH 'N LEARN

Topic :

**Building Connections through
Conversations:**

**How to Cross the Bridge from Divisive
Opinions to Inclusive Differences**

This presentation consists of two powerful communication strategies: "Conversity" and "Crucial Conversation." Conversity is a process that helps people create bonds through dialogue. Participants will explore how a conversation with an intentional focus on commonalities can lead to attitudes and behaviors that capitalize on human differences. While the application of diversity can inadvertently appear as divisive and hinder further dialogue, Conversity is positive, proactive, and designed to bring people together.
